Universal network-administration

You need to remote maintenance multiple networks simultaneously and your existing switch / router does not have that many ports? No problem, with the TELE-Router you are able to assign up to 3 IP addresses to each LAN / WAN port, so you can communicate with the various segments and networks.

Worldwide access

No matter where you are, access to the EtherSens-device and its web-interface is available from everywhere.

Data backup S5-PLC on FTP-server via dig. IO

Via digital input triggered DB-backup/-restore without additional PC via PG-socket and Ethernet to FTP-server

Remote-maintenance Siemens-S5-PLC

Remote-maintenance of a Siemens-S5-controller with S5-LAN++ on PD-port via secure VPN-tunnel of the TeleRouter

Data backup S5-PLC on SD-card via dig. IO

Via digital input triggered DB-backup/-restore without additional PC via PG-socket and Ethernet to SD-card

No direct connected LAN-client required

You have some LAN-clients and want to communicate via WLAN with them? No problem, you connect ALF to a switch and you are able to communicate with all this clients. You dont need a direct connect client.
